MinimaLightform 1

Description & Dimensions

A curious object with luminosity and poise, Minima is a floor or table lamp designed to softly illuminate any indoor space. The name Minima tells the story of its surface; it's elegant form represents the minimum 3D surface between 2D curves. The skin of the lamp is a proprietary paper pulp composite surface. The subtle tone of illumination, unique to Minima, results from graded filtration through the composite skin.

Made in Vancouver.
